

Brock Presland

Full-stack Web Developer

Brock Presland

East Ipswich QLD 4305

0474 211 851

brock.presland@outlook.com

Summary

Full-stack web developer with nearly 10 years of experience designing, building and maintaining business websites and web applications. Experienced across WordPress, Laravel, Nuxt.js, Vue.js, React.js, React Native, PHP, JavaScript and MySQL, with a strong focus on creating reliable, high-performing websites that are easy to maintain and deliver real business value. Comfortable working directly with stakeholders, managing projects from concept to deployment, and solving technical challenges across the full web stack. Backed by formal cybersecurity education and interested in growing into senior development or cybersecurity responsibilities over time.

Skills

- Website design, development and maintenance
